## *Pressboard Classification Folders*

The most comprehensive records are easily organized when you use Franklin Mills pressboard classification folders. These multi-partition folders segment records using pre-printed dividers and fasteners. Fast, easy identification and access to contents within each section eliminates the need for multiple folders to manage your records. Our pressboard folders are made-to-order and are ideal for high volume document management applications.

Our heavy-duty pressboard stands up to the most demanding handling situations. Franklin Mills produces all of our pressboard folders in Genuine Type I Pressboard, the highest quality paper stock available. Our classification folders are available in a multitude of colors, each having a smooth, glossy and distinct, marbled finish that imparts a truly professional look.

Pressboard Folders are ideal for records that demand long-term retention or have over an inch of documents. Franklin Mills can design and manufacture classification folders to specification. Our designs have proven to compliment some of the most intensive document management systems in existence.
