## ECONOLINE EXPANDING FILE POCKETS

Redweld® Econoline Expanding File Pockets provide reliable performance at economical pricing and are perfect for general use filing. The red fiber paper gussets are reinforced at the top with Tyvek® overlap. Five piece construction allows for added strength. The Tyvek® gussets are reinforced with Mylar which strengthens the inside gusset edge to resist tearing. Whether paper or Tyvek® gussets, Econoline Pockets provide strength and durability when compared to similar office supply brand pockets.

## CARRYPAC® • PRESENTATION FOLDERS • REPORT COVERS

Complete the package with premium Redweld® custom 5-piece expansion portfolios. Custom expanding portfolios offer an innovative, versatile and unique way to present all information. Redweld® Presentation Products are the perfect solution for client presentations, recruitment, benefits/new employee kits and summer associate programs.

### CarryPac®

Versatile CarryPac® portfolios offer an outstanding application for a wide range of firm and corporate uses. Use CarryPac® as an attractive, durable portfolio anywhere dependable, portable filing is needed. CarryPac® can be printed to promote identity and reinforce brands.

### Presentation Folders

Present documents in a professional and impressive format with a Redweld® Presentation Folder. Folders can be personalized with custom printing with the firm logo and name. To personalize, choose from a variety of stock colors and formats.

### Tax Return and Audit Report Covers

Tax Return and Audit Report Covers offer a professional appearance. Redweld® covers are made of 65 lb. linen stock, available in four stock colors and a variety of styles. Utilize one of our standard forms or customize the cover. To complete, send the client's report in a Redweld® Professional Mailer, see page 18.

### Tax Return Covers

\*Report covers are plain but can be customized.

# INTELLECTUAL PROPERTY

## Intellectual Property

Intellectual Property Folders allow customers to file and organize patent and trademark applications. Interior leafs are punched to accommodate a fastener to hold documents received from the Patent and Trademark Office or from clients. Ideal for maintaining and organizing correspondence and drawings.

### Patent Application Folder

Stock #	Size	Description	Qty/Ctn

## CUSTOM-TAILORED PATENT AND TRADEMARK FOLDERS

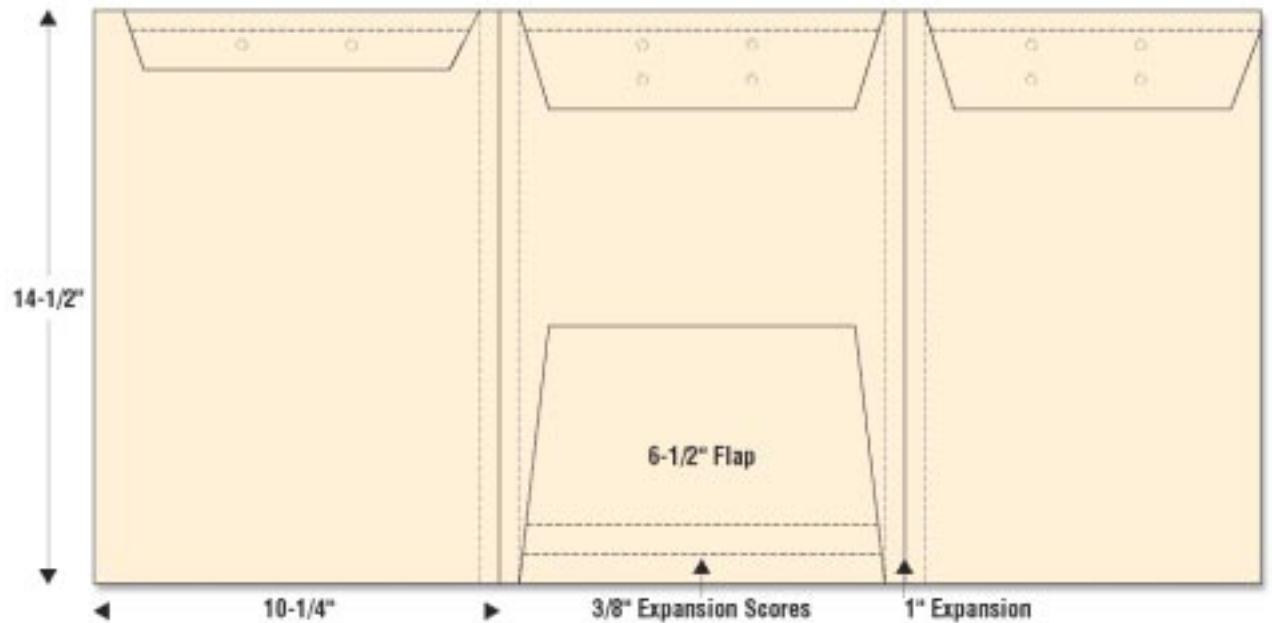

*Design a folder with tabs, color-coded reinforcement, expansion capacity or custom imprint the company's form.*

## Designing custom-tailored Patent or Trademark Folders.

In designing a filing system, consider color-coding as another way to enhance performance in the filing area. Select from our 12 durable bristol stocks. 26 Tyvek® gusset colors are used to create an expandable folder and establish a personal filing system.

Custom printing the company's logo, handling instructions and special forms allows for the ability to track important information, or simply utilize one of the standard forms.

Pockets and fasteners provide another option for keeping content organized.

## REDWELD® FILE JACKETS

Durable, 1-piece File Jackets secure documents that cannot be hole-punched and vary in size. Accessing items requires minimal filing and retrieval effort because the documents are not attached to a folder. Three closed sides are available for additional security. Two closed sides and angle-cut fronts provide the easiest access to, and fastest retrieval of jacket contents.

### Flat Jackets-Single Tab

**EXHIBIT  
DIVIDERS**

see pgs 22-24

# Design Custom Indexes in 4 Easy Steps!

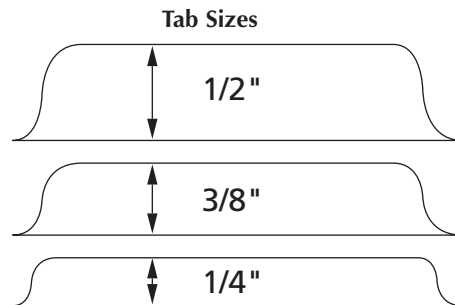

## 1. Select Material and Size

Standard stock for indexes includes 100# white or buff, and many other paper stocks to choose from as well. Special paper requests are also accommodated.

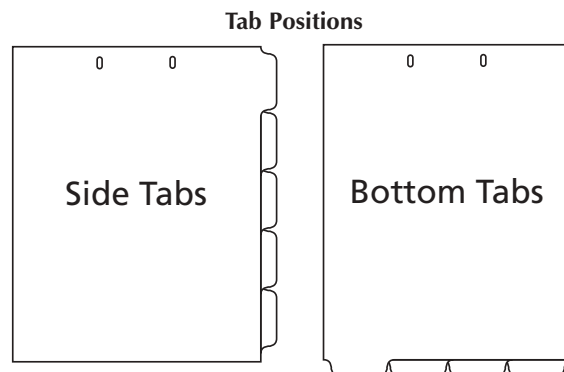

## 2. Specify Tab Size and Position

Tab size indicates the tab's extension from the index edge.

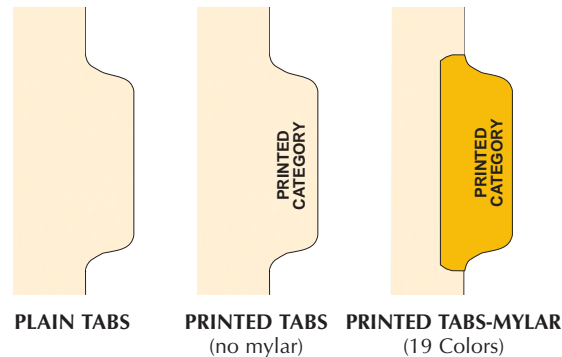

The tabs shown above are actual size. Note that position #1 starts at the left. Plan ahead! Consider leaving an empty position for future use.

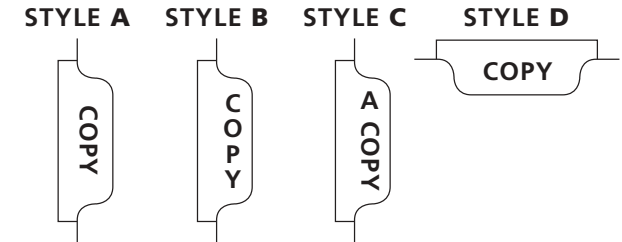

## 3. Specify Tab Color and Print Styles

### Tab Styles

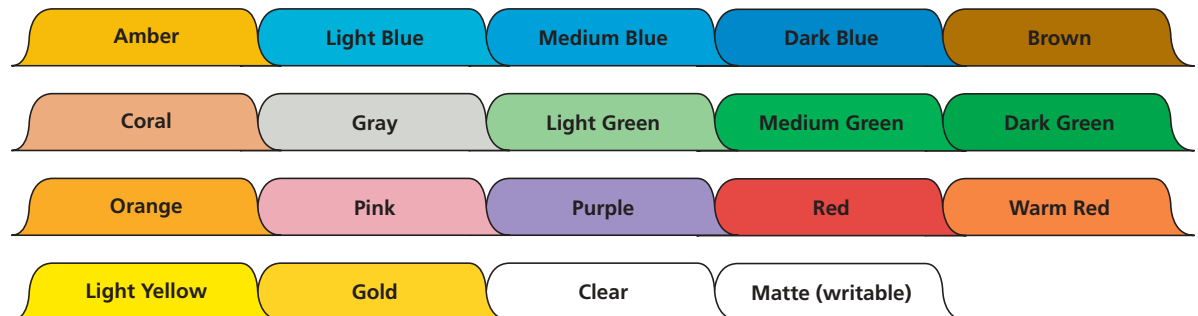

Select plain, printed or Mylar® tabs.

### Print Styles

### Mylar® Tab Colors

## 4. Specify Bindery and Packaging Options

**Collated:** Tab sets are packaged together as a complete set.

**Non-Collated:** Each tab title is packaged individually.

### Filing Accessories—Fasteners

Insure your papers remain in your pressboard folders and binders by adding fasteners.

### Fastener Position Chart

*Illustrated are standard fastener positions for all folders*

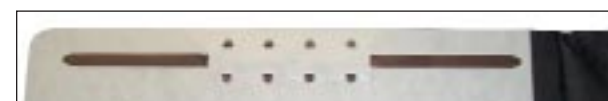

## REDWELD® RETENTION POCKETS

### Types of Fasteners

**PERMCLIP™**—A 2" prong fastener permanently adhered to pressboard.

**H-FASTENER**—A 2" prong fastener permanently embedded into pressboard.

**ACCO™**—A 2 piece fastener used to join a two piece binder. Available in a variety of sizes depending if the binder is an open end (flips up from bottom like a memo pad) or is an open side (opens from left or right side like a book).

**SLIDEWAY**—Fastener bases for standard Acco™ fasteners. Your papers can be removed at the end of the period by simply slipping them out, intact, indexed and fastened together for transfer to long term storage in file pockets or envelopes.

## Filing Accessories—Outguides

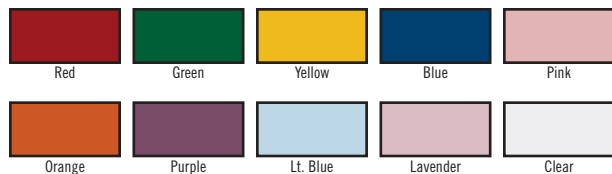

Outguides represent a positive means of controlling files removed from the file area. The “out” tab system provides a visual alert to hasten the return of files. When all or part of a file is removed, the guide is placed in the file. The large pocket can hold the remaining files or it can accumulate other data while the folder is out.

## Made-To-Order—construction

Custom expanding envelopes and pockets are constructed from five pieces; the gusset, front and back inside liners and the front and back are primary stock. This 5-piece construction guarantees a sturdy product with maximum durability, flexibility and resistance to soiling and marring. Custom expandables are available in letter, legal size or design a size to fit your filing requirements.

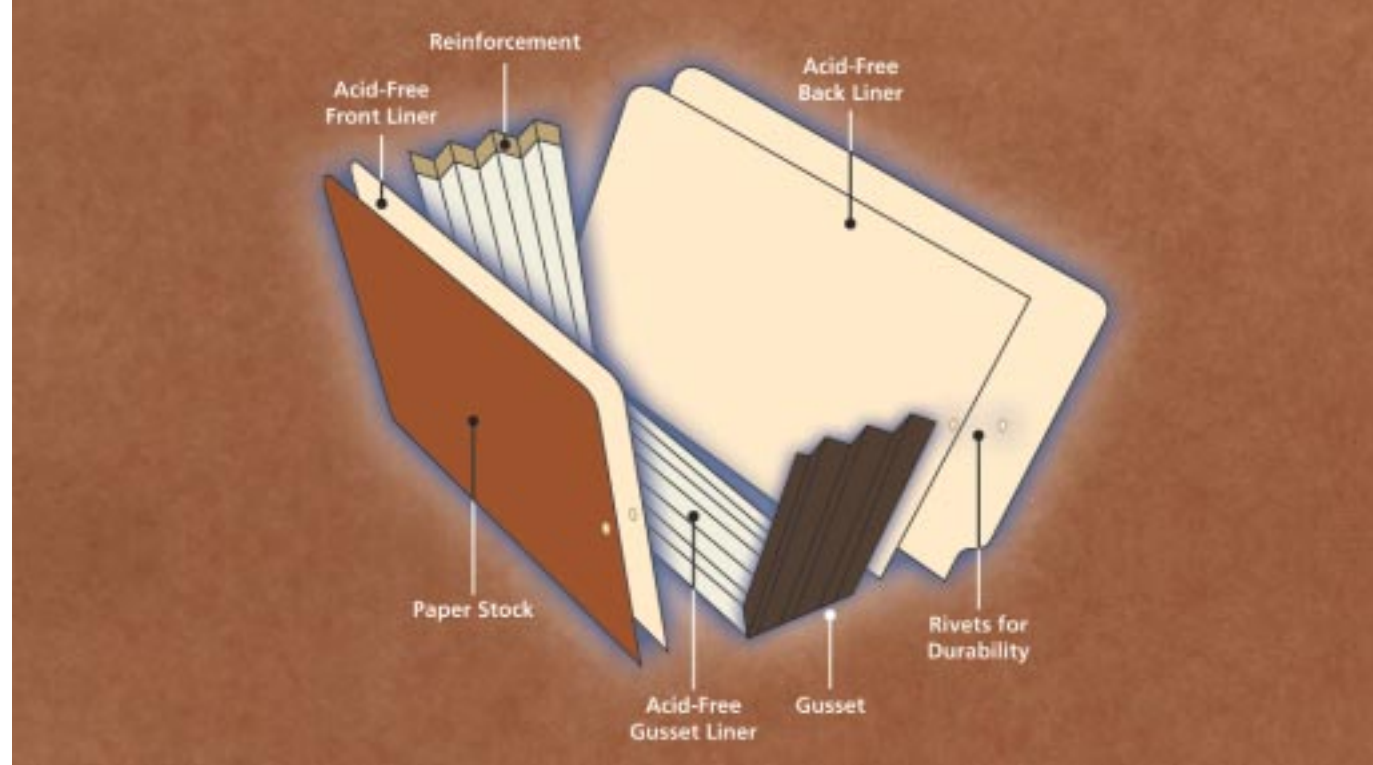

Two acid-free inside liners mounted onto the gusset form the inside case.

Heavy duty material is glue-welded onto the liners to form the pocket or envelope.

Finally, the necessary hardware is added to the product: metal tabs, pull tapes, etc.

## Made-To-Order—rivets

Rivets provide additional reinforcement and durability at the stress point where the gusset meets the folder. Rivets are standard on side tab pockets and envelopes. They may be added to any product at a minimal cost.

# MADE-TO-ORDER

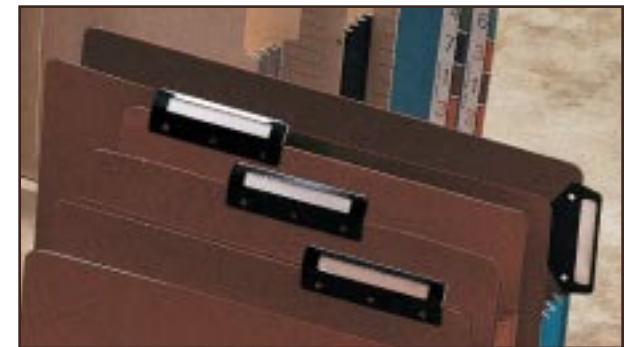

## Made-To-Order—closures

Select the fastener style based on individual filing needs. Elastic cord, tie tape, button and string or velcro closures are available on any custom design folder.

## Made-To-Order—tab styles

Custom filing products may be manufactured with a variety of custom tab styles. Common tab styles include full side tab, shelf tab, top side tab, metal tab, and back tab. Location can be right side, left side or front. The dimensions (left and right) can also be changed.

### Made-To-Order—color gussets

Tyvek® gussets are tear-resistant and have a superior shelf life.

The gusset is the most visible part of the expandable, as well as the most susceptible to stress. Two types of gussets: Tyvek® reinforced non-tear gussets and Duragusset™ mylar-reinforced gussets are offered.

Gussets are composed of a heavy duty, acid-free paper which is laminated with Tyvek® and reinforced with mylar for extra strength and durability. The gusset can be laminated with a choice of 26 colors for color coding applications.

Duragusset™ gussets provide an inexpensive alternative to reinforcing the pocket. Excellent choice for low volume or low usage.

### Made-To-Order—printing

Custom expanding filing products can be imprinted to individual specifications.

Important information is readily available by adding a printed form to the expandables.

### Made-To-Order—dividers and subfolders

Dividers and subfolders are available to fit perfectly into expanding file pockets and envelopes. Services include: printed tab title, mylar coating, tabbing, collating and insertion.

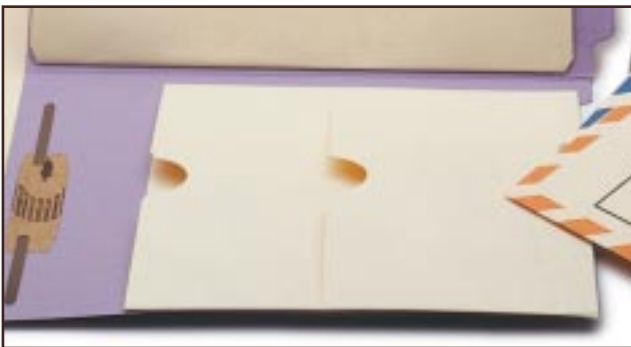

### Made-To-Order—fasteners

Fasteners hold documents within a folder securely. Choose from a variety of fasteners (Permclip, H-fastener, Acco™, Slideway, Tang and Twin Prong). Fasteners have a capacity of one or two inches and can be installed in a variety of positions.

### Made-To-Order—pockets

Poly, manila, kraft or bristol pockets can be installed into any folder. Provide a simple and quick way to organize documents while eliminating the need for punching.
